

We are pleased that you have chosen us to provide your child(ren) with patient centered healthcare. Below are descriptions of what services we typically provide for well child visits and urgent care visits.

DESCRIPTION OF SERVICES PROVIDED AT WELL CHILD VISITS:

A periodic well child examination includes a review of your child's history and a physical exam, as well as age specific screening based on the recommendations of the American Academy of Pediatrics. Your provider **may** find it important to order the following tests at your child's well exam:

- Hemoglobin (anemia testing / capillary draw at 9 months (CPT code 85018, 36416)
- Developmental screening at 9 months, 18 months, and 30 months (CPT code 96110)
- Autism screening at 18 months and 24 months (CPT code 96110)
- Fluoride varnish at 6 months, 12 months, 18 months, 24 months, 30 months, 3 years, 4 years, 5 years (if your child has not done this with your dentist) (CPT code D1206)
- Lead screening at 1 year (every 1 year old) , 2 years (based on risk) (CPT code 83655, 36416)
- Cholesterol / Lipid screening at 10 years and 15 years (CPT code 80061, 36416)
- Depression screening ages 12-18 years
- Spirometry for patients with **persistent** asthma (CPT code 94010)
- Immunization **administration** charges for vaccines (CPT code 90471, 90472 x # of shots)

The well child exam **does not include** evaluation and management of **new and existing problems**. If a new problem or a chronic condition requires additional evaluation and management services there may be additional charges.

DESCRIPTION OF SERVICES PROVIDED AT URGENT CARE VISITS:

When your child is seen for an urgent care visit, the visit charge is based on the evaluation and management of the illness (99211-99205), including the need for prescriptions, tests, referrals, etc. During an urgent care visit, your provider may find it important to order the following tests:

- *CBC (blood count)/capillary draw (CPT code 85025, 36416)*
- *Urinalysis (CPT code 81003)*
- *RSV testing (CPT code 87807)*
- *Influenza A and B testing (CPT code 87804 x 2)*
- *Rapid Strep (CPT code 87880)*
- *Nebulizer treatment/medication (CPT code 94640, J7615)*
- *Pulse oximetry (oxygen levels) (CPT code 94760)*
- *Spirometry (lung function testing) (CPT code 94010)*
- *Splinting / Wound Care*

Providers may recommend running tests at a hospital of your choosing in an effort to treat your child's symptoms. Throat cultures, urine cultures, blood tests, x-rays, MRI's, and ultrasounds are some examples of procedures that will be billed to your insurance separately by hospitals.

You can **contact your insurance company to find out if these tests/services are covered** by your policy. If your insurance does not cover a test/service and **you prefer not to have them performed**, please **let us know at the visit**.
